

ETS Test Preparation Update – 1.13.14

Study Companions: *Praxis* Study Companions are now available for all *Praxis* test titles. These free, comprehensive guides provide test takers with one document that houses valuable test prep information for each test, including Tests at a Glance, general information, study tips and information from the website to help test takers know what to expect on testing day. Links to new videos and a computer-testing demonstration are also included.

Interactive Practice Tests: Interactive Practice Tests (IPTs) are now available for *Praxis* Core Academic Skills for Educators tests. The IPTs are full-length practice tests that are available through the [ETS Store](#) at \$17.95 per subscription. Each practice test allows candidates to answer questions and simulates the testing experience. After each practice test, candidates can view their results as well as answers to all questions.

These IPTs provide answers with explanations, a timer to simulate testing conditions and automated scoring features including:

- Number of questions answered correctly
- Content category scores indicating the number of questions answered correctly in each content category to help candidates understand their performance level

Live Test Taker Webinars

These free webinars deliver in-depth information about the tests and offer teacher candidates the opportunity to interact and ask questions. Webinar attendees are also presented with a plan to help guide their preparation for the *Praxis* tests.

Below is the list of spring 2014 *Praxis* webinar dates. Registration opens about two weeks in advance of the webinar date. To register, visit www.ets.org/praxis/webinars.

- Wednesday, Feb. 19
- Thursday, March 27
- Wednesday, May 7
- Monday, June 2

The starting time for all *Praxis* webinars is 1 p.m. ET

More Information: For more information on study companions, webinars and IPTs, visit the [Praxis website](#).
